# Empowered Girls... Successful Women

## Their Road to Success:

During the week-long experience, significant time is dedicated to leadership development and STEM. Throughout the entire camp, girls will also learn mindfulness through the 7 Mindsets methodology, an international model that teaches simple principles that increase extraordinary levels of happiness, meaning, and success in life. Besides workshops, seminars, roundtables and case studies, participants will also have fun learning from each other while also discovering more about themselves. **The Ella girls** arrive with curiosities, create their own life plan, and return home empowered and focused on their success!
